

USF POLICE DEPARTMENT MEDIA RELEASE

DATE: January 26, 2016

CONTACT: Capt. Meg Ross
(813) 974-2451

SUBJECT: USF Police Conducting Grant Funded High
Visibility Enforcement for Bicycle and
Pedestrian Safety

The USF Police Department was awarded a \$14,607 grant from the Florida Department of Transportation (FDOT) to conduct high visibility enforcement and education as part of Florida's Bicycle/Pedestrian Focused Initiative. "The safety of our citizens is paramount," said Chief Chris Daniel, "this grant aids in our quest to promote traffic safety and reduce bicycle and pedestrian related crashes."

According to The Florida Department of Highway Safety and Motor Vehicles (DHSMV), traffic crashes in Florida resulted in 498 pedestrian fatalities, 7,467 pedestrian injuries, 135 bicyclist fatalities, and 6,520 bicyclist injuries. Based on the National Highway Traffic Safety Administration (NHTSA) Traffic Safety Facts, these rates nearly double the national average for pedestrians and nearly triple the national average for bicyclists.

"We aim to reduce these staggering figures in 2015-16," said Chief Daniel. The USF Police Department plans to conduct multiple education and enforcement details focused on bicycle and pedestrian safety. Grant details began in October and are scheduled to run through May 2016. These first days of the initiative have focused on education. Beginning in Mid-January, violators may receive warnings or citations.

Remember: Alert Today. Alive Tomorrow.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. This is crucial for ensuring the integrity of the financial data and for providing a clear audit trail. The document emphasizes that every entry should be supported by appropriate documentation and that any discrepancies should be investigated and resolved promptly.

2. The second part of the document outlines the procedures for handling incoming payments and outgoing disbursements. It details the steps for recording these transactions, including the use of specific forms and the requirement for proper authorization. The document also discusses the importance of reconciling the accounts regularly to ensure that the recorded amounts match the actual bank statements.

3. The third part of the document addresses the management of fixed assets. It provides guidelines for recording the acquisition of new assets, their depreciation, and their disposal. The document stresses the need for a systematic approach to asset management to ensure that the value of these assets is accurately reflected in the financial statements.

4. The fourth part of the document discusses the preparation of financial statements. It outlines the requirements for the balance sheet, income statement, and statement of cash flows. The document provides detailed instructions on how to calculate and present these statements, ensuring that they comply with the relevant accounting standards and regulations.

5. The final part of the document covers the internal control system. It describes the various controls that should be implemented to prevent and detect errors and fraud. The document emphasizes the role of the internal control system in ensuring the reliability of the financial information and in promoting the efficiency of the organization's operations.
