Dr. Trina D. Spencer was awarded a

academic language.

Researchers partnered with Hillsborough County Public Schools HOST program to complete this research.

Academic language is the pivotal skill repertoire for closing the achievement gap and attention to it is nearly absent in primary grades. Dr. Spencer's long-term goal is to elevate reading and writing achievement by promoting a sustained focus on academic language beginning

languagesamples from K-3 students. They have transcribed them and now the ALPS team is analyzing the samples to create comprehensive linguistic profiles of n grammar focusing especially on en s' vocabulary an he differences between students with above average and below averageskills. These gaps indicate where interventionshould be directed.

Because the overarching aim of this effort is to reduce the language-based achievement gap, the results will inform the future development of academic language educational materials. Researchers will also produce grade level sequences
